

Ma Tsun Kit, Marco

 matsunkit1109@gmail.com

Summary:

As a skilled web developer with four years of experience in database management and website development, I have demonstrated proficiency in PHP (Codeigniter 3, Laravel 6/9/10), MySQL, and JavaScript (jQuery, Vue). Along with my knowledge of HTML, CSS, and MVC web development, I bring analytical and organizational skills honed through both industrial attachment and work experience. I am seeking a position in the web development industry that can leverage my expertise and passion for creating high-quality websites.

Education:

2017-2019

The Hong Kong Institute of Vocational Education (Tuen Mun)

Higher Diploma in Software Engineering

- Distinctions in Programming, Database Principles, Web Design, and Network Fundamentals
- Completed a final-year project analyzing website development
- Authored a 5000-word research paper on website development

2010-2016

Ju Ching Chu Secondary School (Yuen Long)

Hong Kong Diploma of Secondary Education (2016)

- Passed all subjects and achieved Level 3 in Information and Communication Technology and Liberal Studies.

Work Experience:

2022.04-2024.01

ESDlife (PHP Web Developer)

Responsibilities:

- Developed the Employment Support Scheme 2022 for the Hong Kong government, a high-profile project that required expertise in PHP (Laravel), and javascript (jQuery)
- Built and maintain online media (CMS) using PHP (Wordpress), helping ESDlife digital expansion and reaching new audiences
- Improved the wedding application (CMS, CRM) by utilizing PHP (Laravel, Codeigniter), javascript (Vuejs), making it easier for employees to access and manage information and more efficiency.
- Collaborated with cross-functional teams to identify and address technical challenges, resulting in faster development cycles and higher-quality outputs

2019-2022.04

Surpass Solution (Hong Kong) Limited (Web Developer)

Responsibilities:

- Developed several critical systems, including an Order management system, Online store system, Drug distribution interface, and Office automation system using PHP (Codeigniter) and javascript (jQuery)
- Contributed to system maintenance and testing, ensuring that Surpass Solution's clients received a seamless user experience

Skills:

Languages: Cantonese (native), English (fair), Putonghua (fluent)

IT Skills: HTML, CSS, JavaScript, JQuery, Vuejs, PHP, Codeigniter, Laravel, MySQL, Java, JSP, C#, Git, Docker.

Availability:

- Immediate
- Salary expectation: Negotiate
